Subject: 5-2-14 Revised Order on State Water Project and Central Valley Project Temporary Urgency Change Petition

This is a message from the State Water Resources Control Board.

We were experiencing some technical difficulties recently. We apologize for any duplicates of this email you may have received.

On January 29, 2014, the Department of Water Resources and the United States Bureau of Reclamation (hereinafter Petitioners) jointly filed a Temporary Urgency Change Petition (TUCP) to temporarily modify requirements in their water right permits and license for the State Water Project and Central Valley Project in response to drought conditions. An Order approving the TUCP was issued on January 31, 2014 that allowed the Petitioners to meet modified Delta requirements. On April 29, 2014, the Petitioners submitted a request (Revised TUCP) to renew the Order and for additional modifications to the Order that was last revised on April 18, 2014. On May 2, 2014, the State Water Board Executive Director modified and extended the Order in response to the Petitioners' request.

The TUCP, Revised TUCP, a May 2, 2014 Notice of Petitioners' request to renew the TUCP (Notice), and other information concerning this matter are posted on the State Water Board's website at:

http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/tucp.shtml.
